WALDORF ASTORIA®
HOTELS & RESORTS

Project Overview

AKG Group delivered premium finishing works for the 1st ever Waldorf Astoria Hotel in Africa.

Scope of Work

Our team handled detailed floor and wall finishes for key public areas, including the all-day dining venue and the main hotel lobby. We utilized premium materials and applied exceptional craftsmanship to deliver a flawless, timeless finish that complements the elegance of the hotel's design.

Why AKG?

AKG Group is recognized for its commitment to precision, reliability, and design excellence. Our track record in luxury finishing works reinforces our reputation as a trusted partner in premium hospitality developments.

Project Overview

AKG Group Brings Custom Water Feature Solutions to Hacienda Red.

AKG Group continues to lead in the delivery of high-end water feature solutions, offering innovative design and engineering tailored to luxury developments across Egypt. Our expertise elevates both residential and commercial environments through performance-driven, visually striking systems.

The Hacienda Red Project is one of the latest coastal developments where AKG Group installed its signature pool and spa systems.

Designed with the client's lifestyle in mind, these systems provide an elegant balance of aesthetic appeal and technical precision, perfectly suited to the upscale beachside setting.

Scope of Work:

AKG Group designed and executed a custom infinity-edge pool and integrated spa system, offering a seamless visual flow toward the sea. The elegant curves, high-end finishes, and precise detailing complement the coastal landscape, enhancing both functionality and aesthetics.

Wall & Paint Finish:

Walls finished in smooth off-white/eggshell paint to enhance natural light and blend with the marble flooring. Staircase wall detailed with rounded profile for a seamless, elegant transition.

Scope of Work:

Main Door Detailing:

Custom solid wood door with geometric frosted-glass cut-outs. Treated with deep walnut stain and UV-resistant lacquer for durability, combining privacy with soft daylight flow.

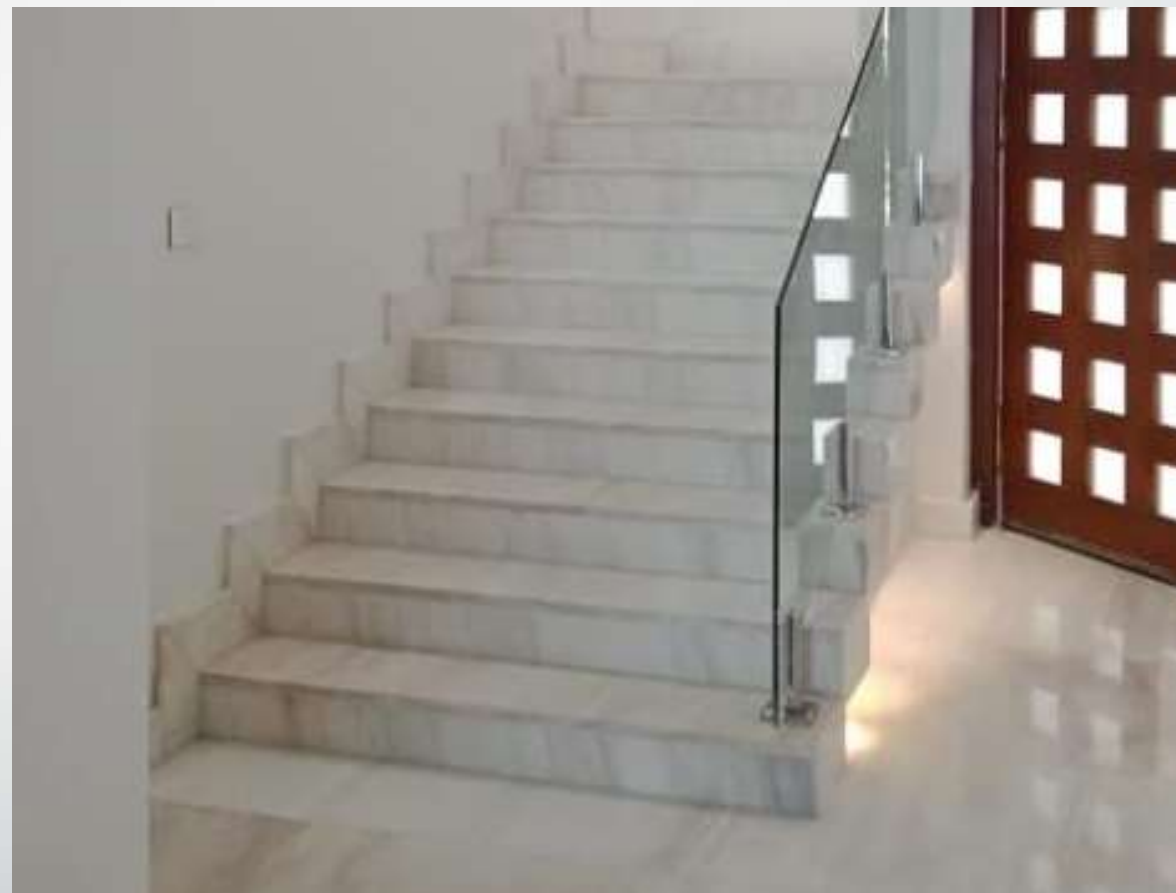

Bathroom – Floating Sanitary Concept:

Off-white textured porcelain tiles with wave patterns installed in seamless alignment. Features include wall-hung WC and bidet with concealed frames, floating marble countertop, and under-shelf. Frameless backlit mirror provides ambient lighting. Frosted aluminum window ensures privacy and ventilation.

Project Overview

AKG Group Elevates Coastal Luxury at Hacienda Bay with Bespoke Pool & Spa Solutions

Set against the stunning backdrop of the North Coast ,AKG Group brought its expertise in water feature engineering to life at Hacienda Bay, one of Egypt's most sought-after seaside destinations.

This project reflects AKG Group's ability to tailor solutions to the environment, ensuring a luxurious, resort-like experience for the homeowner while maintaining structural and technical excellence.

FOUR SEASONS

Project Overview

AKG Group proudly contributed to the prestigious Four Seasons project, bringing our expertise in luxury sanitary ware and pool systems. Our mission was to deliver elegance, durability, and performance that match the hotel's world-class standards.

Scope of Work:

We supplied and installed high-end sanitary solutions for the guest bathrooms, combining sleek modern design with superior functionality. Every product was carefully selected from AKG Group's exclusive collections to meet the hotel's refined taste.

Scope of Work:

AKG Group also handled the pool finishing, ensuring a seamless, luxurious look and long-lasting quality.

From materials to execution, every detail reflected precision and premium craftsmanship.
